- New Standard: SPECIFICATION FOR PCB EQUIPMENT COMMUNICATION INTERFACES (PCBECI) , Doc. 6263,
- Presented by Chi-Pin, Chen

修改項目

1. 修正錯誤之 Table 編號
2. 修改 9.4.2

(原)

9.4.2 Software packages, which provide the “AlarmDetected” and “AlarmCleared” events for each single alarm are acceptable.

(新)

9.4.2 Software packages, which provide the “AlarmDetected” and “AlarmCleared” events for each single alarm are acceptable as long as they also provide the generic “AlarmDetected” and “AlarmCleared” events for all alarms.

Ballot Plans:

- **PCBECI ballot at Cycle 8, 2018**
(Ballot Submission Date: Friday, October 12, 2018)

Next Meeting

- PCBECI TF meeting: need to arrange
