

Taiwan I&C Standard Committee Liaison Report

SEMI Taiwan

Dec 2015

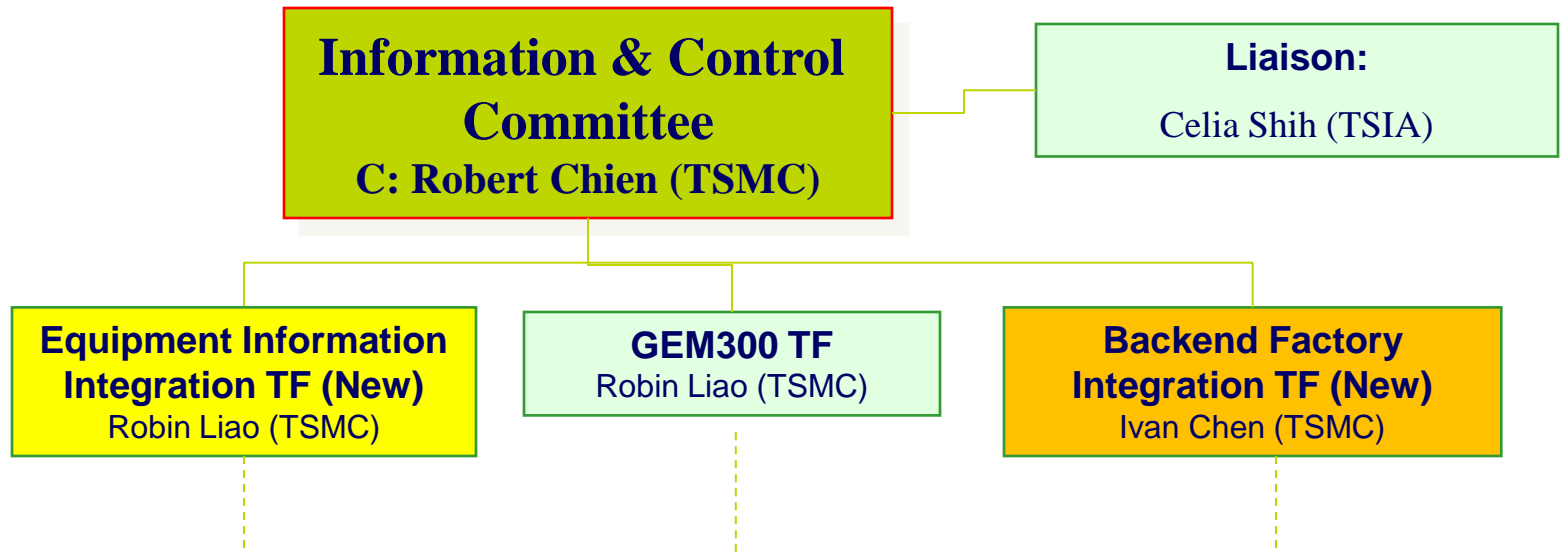

SEMI Taiwan Standards Committee

I&C Standard Committee Highlights

- This committee has been inactive for more than 3 years
- Started evaluating current industry need in Taiwan since late 2014 and prepared to propose a new 3-TF committee structure going forward
- Continued to recruit new TC and TF members
- Promoted I&C Committee to broader industry audience in Smart Manufacturing Seminar of SEMICON Taiwan on Sep 2
- Held TC chapter meeting on Sep 3 in conjunction with eMDC Symposium during SEMICON Taiwan and approved the establishment of 3 renewed TFs:
 - GEM300
 - Equipment Information Integration
 - Backend Factory Integration
- Held the first I&C standard training workshop in Hsinchu Science Park on Nov 16
