

SEMI Standards Spring 2022 Mass Flow Task Force Meeting Summary

March 28, 2022

1. Two documents (5 year reapproval) reviewed that were balloted in Cycle 8. Both received rejects from Supika Mashiro,

Cycle 8 Ballot Review 6878 - Reapproval of SEMI E77-1104 (Reapproved 0815), Test Method for Calculation of Conversion Factors for a Mass Flow Controller Using Surrogate Gases				
6880- Reapproval of SEMI E80-0299 (Reapproved 0915), Test Method for Determining Attitude Sensitivity of Mass Flow Controllers (Mounting Position)				
Supika Mashiro/TEL				
6878	TEL-1	7.1, 7.6, 7.7, 12.13	Negative "must" should be changed to "shall" in those paragraphs.	"must" should not be used to express requirement. See Style Manual Table 4, #4-6(1) and (2)
Supika Mashiro/TEL				
6880	TEL-1	7.1, 7.5, 7.6, 13.6	Negative "must" should be changed to "shall" in those paragraphs.	"must" should not be used to express requirement. See Style Manual Table

The rejects were found related and technically persuasive.

TF decision: Fail the documents, prepare a SNARF. Make the corrections, and resubmit for ballot.

Other business:

Kelly McDonough moved from Pivotal Systems and resigned as a co-chair of Mass Flow TF.

Proposing Kevin Findleton from Ichor Systems as a Co-Chair. Need to be voted at the TC Chapter meeting.
