Organization Chart

TF Reports

- Equipment Safety TF
 - Propose the new business for moveable robot
 - Study the feasibility for the standard of movable robot which will combine S17 with S28.
 - Study the safety guideline for battery use in movable robot which works in clean room.
 - Study the safety guideline of moveable robot for earthquake
 - Propose the new business for energy saving for clean room
 - For energy saving, the ventilation design in clean room should consider appropriate ventilation within a safe range. The suggested specification in S2 and S23 are too wide to waste electrical power’.
- Seismic TF
 - In order to prevent the damage caused by earthquake, equipment in the clean room should take methods of fastening things and manufacturing process combined into consideration
 - Will plan to work with JP Seismic Protection TF to discuss about equipment of seismic protection issue.
