

## **SEMI Fall Standards Meeting 2019**

### **Metallic Materials for Gas Delivery Systems TF Meeting Summary**

Date: Nov 04, 2019, 9am-10am

TF Co-Chair: Bill Kiikvee. Acting Co-Chair: M. Saleem

#### Summary:

- Rob Shutler presented update on Test Method for Flow Coefficient of High Purity Shut Off valves in Vacuum Condition
  - Round robin test plan developed
  - Will use a standardized test valve
  - 6 participants identified
  - Target completion date for finishing evaluation by Spring 2019
  - New standard will be created as a subordinate document, F32.1
- Plan to re-ballot F74, F32 (which previously failed ballot)
  - Follow-up with Bill
- Issue Reapproval SNARF for F72 (Reapproval, Auger Electron Spectroscopy test method)
  - For Cycle 9-2019, or Cycle 1, or 2-2020
- SEMI E49.6, E49.8- Work together with Filters and Purifiers TF and re-write the document. The last update was in 2003 and documents require major updates. Issue SNARFs for re-write.
- Next meeting: Spring SEMI Standards Meeting 2020, March 30, 9-10am.
