# Taiwan FPD Standard Committee Liaison Report

SEMI Taiwan  
Apr 2015

# FPD Metrology Standard Committee Organization Chart

# FPD Standard Committee Highlights

- Attended Korea FPD Metrology TC Chapter meeting in conjunction with SEMICON Korea and presented Taiwan Liaison Report on Feb 6, 2015
- One new SNARF under development
  - Flexible Display TF: “Test Methods of Gas Barrier Performance for Flexible Display Devices” (tentative)
  - Clarified with Japan Flexible Display TF about scope of their existing SNARF Doc #555I: “New Standard: Measurement Method of Water Vapor Transmission Rate for Plastic Films and Sheets with High Barrier Properties for Electronic Devices”
  - TF leaders have decided to focus this new SNARF on mechanical property of flexible display component and the whole device in addition to traditional WVTR method in order to differentiate it from #555I
