

STANDARDS NEW ACTIVITY REPORT FORM (SNARF)

Date Prepared: 11/15/2021 Revised (if Applicable): _____

SNARF for: New Standard: Guide for Reporting Performance Parameters of the Retaining Rings for Chemical Mechanical Planarization (CMP) used in Semiconductor Manufacturing

Originating Global Technical Committee: Liquid Chemicals

Originating TC Chapter: North America

Task Force (TF) in which work is to be carried out: Chemical Mechanical Planarization Solid Consumables (CMP-C) Task Force

Submitted by: Alex Tregub, Don Hadder, Laura Ledenbach, Jacob Kim, Eric Moyer, Michael Mills, Matthew Fritz, Vincent Laraia, Doruk Yener **Company:** INTEL, Evonik, CMC, DuPont, 3M, Entegris

Phone: 408-653-9408; 480-212-3709; 480-330-7622; 630 280 9850

Refer to *Procedure Manual* § 2.2.4 for more information on properly filling out the SNARF.

1. Rationale:

a: Describe the need or problem addressed by this activity.

(Indicate the customer, what benefits they will receive, and if possible, quantify the impact on the return on investment [ROI] if the Document is implemented.)

Manufacturers of the retaining rings that hold the wafer in place during Chemical Mechanical Polishing (CMP), currently only report a limited number of parameters which have now been correlated to performance within the CMP processes of semiconductor manufacturing. In addition, these parameters are not universally reported across the industry. The limited number of parameters and the absence of a universal set of these parameters hinders the ability to assess and compare performance of the retaining rings. To meet the current needs in semiconductor manufacturing and address the current gaps within the industry a consistent reporting method guide, which includes a matrix of all relevant parameters and fab performance correlation, is needed.

b: Estimate effect on industry. Check one of the following:

1: Major effect on entire industry or on multiple important industry sectors
- identify the relevant sectors: IDMs/ODMs; manufacturers of the retaining rings for CMP; suppliers/sub suppliers for CMP ring manufacturers.

2: Major effect on an industry sector
- identify the relevant sector: _____

3: Major effect on a few companies
- identify the relevant companies: _____

4: Slight effect or effect not determinable

c: Estimate technical difficulty of the activity. Check one of the following:

- I: No Difficulty – Proven concepts and techniques exist or quick agreement is anticipated
- II: Some Difficulty – Disagreements on known requirements exist, but developing consensus is possible
- III: Difficult – Limited expertise and resources exist and/or achieving consensus is difficult
- IV: Extremely Difficult – Expertise and resources are scarce and/or achieving consensus is very difficult

2. Scope:

a: Describe the technical areas to be covered or addressed by this Document development activity.

(For Subordinate Standards, list common concepts or criteria that the Subordinate Standard inherits from the Primary Standard, as well as differences from the Primary Standard.)

- To specify set of the parameters that are important to assess performance of CMP retaining rings in a consistent way across industry
- To provide guidance for comprehensive reporting of the parameters and test conditions for CMP retaining rings.

b: Expected result of activity

- | | |
|--|---|
| <input checked="" type="checkbox"/> New Standard or Safety Guideline (including replacement of an existing Standard or Safety Guideline) | <input type="checkbox"/> Line-item revision to two or more existing Standards or Safety Guidelines |
| <input type="checkbox"/> New Subordinate Standard to an existing Standard or to a new Primary Standard to be developed concurrently with this new Subordinate Standard | <input type="checkbox"/> Reapproval of a Standard or Safety Guideline |
| <input type="checkbox"/> New Preliminary Standard | <input type="checkbox"/> Removal of a Standard or Safety Guideline |
| <input type="checkbox"/> Major revision to an existing Standard or Safety Guideline | <input type="checkbox"/> Withdrawal of a Standard or Safety Guideline |
| <input type="checkbox"/> Line-item revision to an existing Standard or Safety Guideline | <input type="checkbox"/> Reinstatement of a Standard or Safety Guideline |
| | <input type="checkbox"/> Publication of an existing Standard or Safety Guideline as an American National Standard |
| | <input type="checkbox"/> New Auxiliary Information |
| | <input type="checkbox"/> Modification of existing Auxiliary Information |

For a new Subordinate Standard, identify the Primary Standard here: _____

For revision of existing Standard(s) or Safety Guideline(s), identify the Standard(s) or Safety Guideline(s) that are to be revised here: _____, and identify which parts of the Standard(s) or Safety Guideline(s) that are to be revised. (Check all that apply.)

- Modification of an existing part of Standard(s) or Safety Guideline(s) including Appendices, Complementary Files, and Supplementary Materials**
- Addition of one or more Appendices or Complementary Files to an existing Standard or Safety Guideline**
- Addition of one or more Related Information sections or Various Materials to an existing Standard or Safety Guideline**
- Revision or addition of one or more Subordinate Standards to an existing Primary Standard**

For Standards, identify the Standard Subtype below:

Classification

Practice

Test Method

Miscellaneous (describe:)

Guide

Specification

Terminology

3. Projected Timetable for Completion:

a: General Milestones

a. Activity Start: 10/08/2021

b. 1st Draft by: 01/31/2022

c. (Optional) Informational Ballot by: _____

d. Letter Ballot by: 02/30/2022

e. TC Chapter Approval By: 03/30/2022

4. Liaisons:

a: List SEMI Global Technical Committees, TC Chapters, Subcommittees, or Task Forces in your or other Regions/Locales that should be kept informed regarding the progress of this activity.

(Refer to SEMI Standards organization charts and global technical committee charters as needed.)

None

b: List any planned Type I Liaisons with external nonprofit organizations (e.g., SDO) that should receive Draft Documents from Standards staff for feedback during this activity and be notified when the Letter Ballot is issued (see Procedure Manual § 7).

c: Intercommittee Ballots (check one):

will be issued – **identify the recipient global technical committee(s):** _____

will not be issued

5. Safety Considerations:

The resulting Document is expected (Check one):

to be a Safety Guideline

NOT to be a Safety Guideline

NOTE FOR 'to be a Safety Guideline': When all safety-related information is removed from the Document, the Document is NOT technically sound and complete – Refer to § 15.1 of the *Regulations* for special procedures to be followed.

NOTE FOR 'NOT to be a Safety Guideline': When all safety-related information is removed from the Document, the Document is still technically sound and complete.

6. Intellectual Property Considerations:

a: For a new Standard or Safety Guideline and for any part to be modified or added in a Revision of published Standards and Safety Guidelines (Check one):

the use of patented technology is NOT required.

patented technology is intended to be included in the proposed Standard(s) or Safety Guideline(s).

(If the second box is checked, check one):

- Letter of Intent received
- Letter of Intent not received

b: For Revision, Reapproval, Reinstatement, or Withdrawal of existing Standard(s) and Safety Guideline(s) (Check one):

- there is no known material patented technology necessary to use or implement the Standard(s) and Safety Guideline(s)
- there is previously known material patented technology necessary to use or implement the Standard(s) and Safety Guideline(s)

c: The body of the Document and any Appendices, Complementary Files, Related Information sections, or Various Materials that may or may not be a part of the Document by reference (Check one):

- will incorporate Copyrighted Item
- the incorporation of Copyrighted Item will NOT be required

NOTE FOR 'the use of patented technology or the incorporation of Copyrighted Item(s) is NOT required': If in the course of developing the Document, it is determined that the use of patented technology or Copyrighted Item(s) is necessary for the Document, the provisions of *Regulations* § 16 must be followed.

NOTE FOR 'will incorporate Copyrighted Item': A copyright release letter must be obtained from the copyright owner prior to publication.

7. Comments, Special Circumstances:

8. TC Member Review (Check one):

took place between (*put dates here:* 11/15/2021 and 11/28/2021) before approval at the TC Chapter Meeting, or

- took place between (*put dates here:* MM/DD/YYYY and MM/DD/YYYY) before approval by the GCS, or
- is not required for this SNARF.

NOTE FOR 'TC Member Review': A TC Member Review is required by the *Regulations* for a period of at least two weeks before approval of a new, or a major revision of an existing, Standard or Safety Guideline. (See *Regulations* ¶ 8.2.1)

9. Approval Dates:

TC Chapter or GCS: _____
Recorded in TC Chapter Minutes: _____
