To: Ms. Yukari Takayama
Standards Coordinator
Standards Department
Semiconductor Equipment and Materials International

RE: Copyright Statement

This letter is to acknowledge that Semiconductor Equipment Association of Japan (SEAJ) permits SEMI to use the quoted passage of copyrighted items in "SEAJ-E-002E – Guidelines for Energy Quantification on Semiconductor Manufacturing Equipment and Utilities" with different wording as seen in the sections listed below for the purpose of implementing the standard 3497C, Specification for Energy and Utilities Conservation on Semiconductor Manufacturing Equipment, without specific license and without payment of royalty or other charge to SEMI.

Sections where the copyrighted items are used are:

- 1) Table – 1: Preferred Coefficients for Converting Utility Consumption to Equivalent Electricity Consumption
- 2) Related Information 1: Conditions for Data Gathering and Normalization

Very truly yours,
