## 1. Rationale:

### a: Describe the need or problem addressed by this activity.

(Indicate the customer, what benefits they will receive, and if possible, quantify the impact on the return on investment [ROI] if the Document is implemented.)

D71, Test Method of PDP Tone and Color Reproduction limits the application to PDP (Plasma Display Panel) products. But PDP is not an FPD product being produced anymore. Therefore, it is necessary to update the document's scope to follow the current technology trends. In this major revision, the items to be changed are as follows.

1. Title: Test Method of Tone and Color Reproduction for Flat Panel Displays
2. Update Reference Standards and Documents according to the new title
3. Update test patterns and equations to harmonize with other SEMI FPD standards (D076-00-0318 and D082-00-0821)
4. Editorial changes to the test method and related data

Through the revision of these items, it is expected that the test method of tone and color reproduction for contemporary FPD will be reflected, and some equations will be updated to provide customers with tone and color reproduction accuracy.

### b: Estimate effect on industry. Check one of the following:

#### ■ 1: Major effect on entire industry or on multiple important industry sectors

- identify the relevant sectors: FPD panel manufacturing companies and FPD panel purchasing companies

#### 2: Major effect on an industry sector

- identify the relevant sector: \_\_\_\_\_

#### 3: Major effect on a few companies

- identify the relevant companies: \_\_\_\_\_

#### 4: Slight effect or effect not determinable

### c: Estimate technical difficulty of the activity. Check one of the following:

#### ■ I: No Difficulty – Proven concepts and techniques exist or quick agreement is anticipated

- II: Some Difficulty – Disagreements on known requirements exist, but developing consensus is possible**
- III: Difficult – Limited expertise and resources exist and/or achieving consensus is difficult**
- IV: Extremely Difficult – Expertise and resources are scarce and/or achieving consensus is very difficult**

**2. Scope:**

**a: Describe the technical areas to be covered or addressed by this Document development activity.**

*(For Subordinate Standards, list common concepts or criteria that the Subordinate Standard inherits from the Primary Standard, as well as differences from the Primary Standard.)*

To revise the title and update the test patterns and related equations.

**1. Title:**

Revise to “Test Method of Tone and Color Reproduction for Flat Panel Display” from “Test Method of PDP Tone and Color Reproduction”

**2. Update Reference Standards and Documents according to the new title**

**3. Test patterns**

Update color reference patterns to harmonize with the other SEMI FPD standards (D076-00-0318 and D082-00-0821)

**4. Equations**

Update equations related to chromaticity difference and color difference

**5. Sentences**

Update with editorial changes of the test method and related data

**b: Expected result of activity**
