Refer to *Procedure Manual* § 2.2.4 for more information on properly filling out the SNARF.

1. Rationale:

a: Describe the need or problem addressed by this activity.

(Indicate the customer, what benefits they will receive, and if possible, quantify the impact on the return on investment [ROI] if the Document is implemented.)

When SEMI F57 was last revised the requirement to analyze raw material pellets in Table 1 was left unchecked because there was not adequate direction for testing in SEMI F40. SEMI F40 has now been revised to include detailed directions on testing of components including raw material pellets. As agreed at the time once SEMI F40 was revised SEMI F57 would add the requirement to test raw material pellets.

We will add one check to Table 1 to include pellets in Required Testing.

b: Estimate effect on industry. Check one of the following:

☐ 1: Major effect on entire industry or on multiple important industry sectors

- identify the relevant sectors: _____

☐ 2: Major effect on an industry sector

- identify the relevant sector: _____

☐ 3: Major effect on a few companies

- identify the relevant companies: _____

☒ 4: Slight effect or effect not determinable

c: Estimate technical difficulty of the activity. Check one of the following:

☒ I: No Difficulty – Proven concepts and techniques exist or quick agreement is anticipated

☐ II: Some Difficulty – Disagreements on known requirements exist, but developing consensus is possible

☐ III: Difficult – Limited expertise and resources exist and/or achieving consensus is difficult

☐ IV: Extremely Difficult – Expertise and resources are scarce and/or achieving consensus is very difficult

2. Scope:

a: Describe the technical areas to be covered or addressed by this Document development activity.

(For Subordinate Standards, list common concepts or criteria that the Subordinate Standard inherits from the Primary Standard, as well as differences from the Primary Standard.)

Add a check mark in Table 1 line 2 to indicate that pellets are included in required testing.

Remove note 3 under Table 1.
