# Technical Committee Award

- The JRSC revised the Awards Guidelines for the **“Technical Committee Award”**
  - The Technical Committee Award is presented to individuals who have made outstanding contributions to their respective Technical Committees in the Japan Region.
  - To date, the Guidelines have not permitted the same individual to receive the Technical Committee Award more than once for the same document or activity, even if the activity spans multiple years.
  - The Guideline was revised to allow individuals to be recognized for their significant contributions in a given year, even if the same work continues over multiple years.
- Announcement of Award Recipients
  - Until now, recipients of the Technical Committee Award have been recognized during the TC meetings held in conjunction with SEMICON Japan or the subsequent nearest meeting, and the recognition has been recorded in the meeting minutes.
  - However, the JRSC decided that award recipients will also be featured on a display panel at the SEMICON Japan venue.

# Planning Meeting Updates

# Planning Meeting 2025

- The meeting was held on August 28, 2025, 2:00PM – 5:30PM, at TODA Hall & Conference.
