# New Action Items

<i>Item #</i>	<i>Assigned to</i>	<i>Details</i>
1	SEMI	Jen-Chieh Wang (OmniMeasure) stated that panel level packaging spans multiple TCs; regulatory clarity is needed. SEMI will verify with SEMI Regulations whether a Joint TC is permitted.
2	SEMI	Jen-Chieh Wang (OmniMeasure) stated cross-domain cooperation could generate stronger synergy and linkage. SEMI will arrange a meeting between the FPD and 3DP&I Chairs to discuss possible collaboration.
3	SEMI / TF	Yu-Ping Lan (ITRI) stated enhanced interaction among TCs and industry committees (e.g., Metrology) is needed, supported by concrete TF input. Nick suggest to facilitate cross-committee/industry engagement and encourage TF to raise issues for further internal discussion.
